## Protect your DIGITAL IDENTITY

**3 Ways to Protect your Digital Identity** 

Choose the content that you show other people

Be wary of abusive content

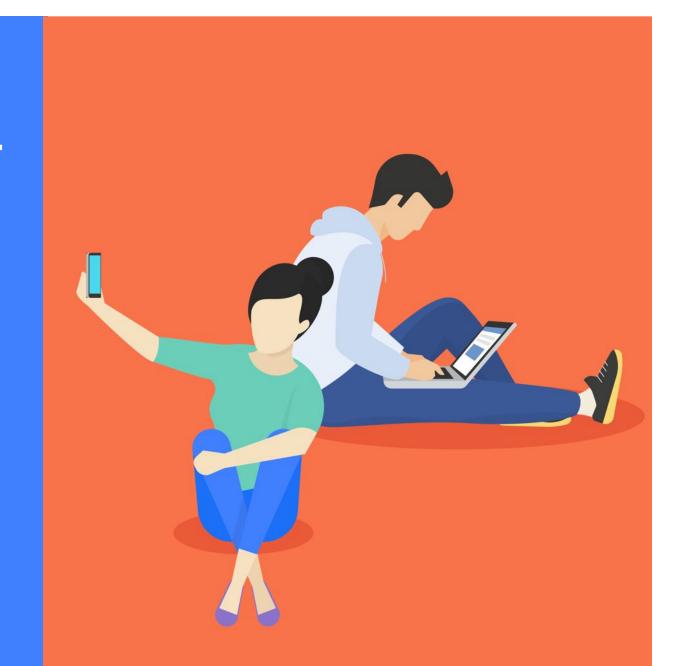

Secure your account

#### Choose the content that you show other people

Be your **authentic self** (don't use a fake name/profile and know when to report)

**Choose your friends wisely** (unfriend, unfollow, block).

**Choose your audience wisely** (be careful with what you share).

## **Facebook Community Standards**

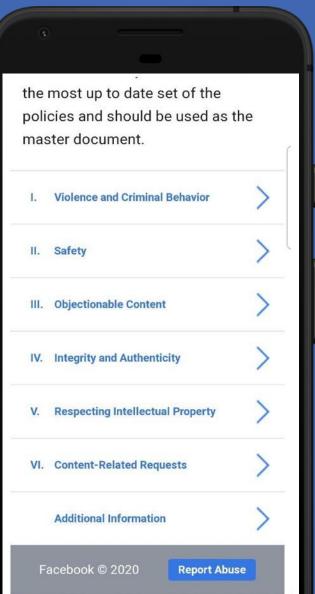

languages.

Like a Code of Conduct or Student Handbook, this is an outline of what is and what is not allowed on Facebook.

These policies are inclusive of different views and beliefs, those of people and communities that might otherwise be overlooked and marginalized.

Community Standards Ξ Search Community Standards INTRODUCTION Every day, people use Facebook to share their experiences, connect with friends and family, and build communities. We are a service for more than two billion people to freely express themselves across countries and cultures and in dozens of

If you are to comment, how would you react to the following posts?

## DIGITAL COMMUNICATION: PERSON NOT A SCREEN

SIBLING

We forget about the **other person** – behind the screen.

But behind every screen is a human being with unique experiences and backgrounds - just like you and me.

And remembering that allows us to **empathize** with them and try to put ourselves in their shoes.

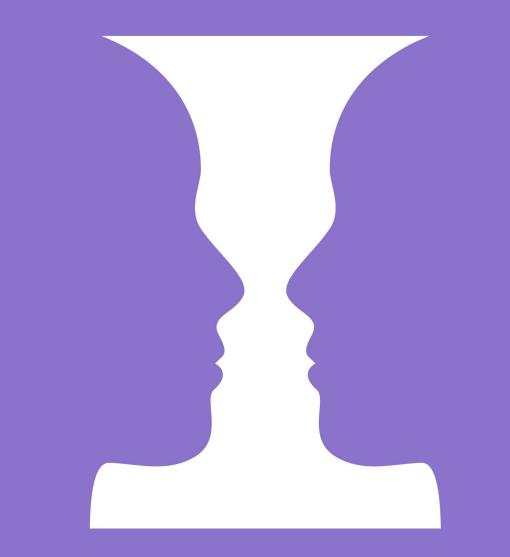

**EMPATHY** is our ability to feel what another person is experiencing, from that person's point of view.

# Butterfly or Two Faces

# Vase or Two Faces

# Q: Why is it important to communicate online respectfully?

- We have different perspective and experiences.
- It is our responsibility to respect the values, feelings, and beliefs of others, and accept differences.
- When we respect others and accept differences, we recognise that behind every screen is a human being we can have conversations that allow ourselves and communities to be better and more helpful.

# Ways to practice positive online engagement

Know your audience

Place ourselves in others' shoes Treat everyone as important

Be open

Be sensitive to the environment A RESPONSIBLE DIGITAL CITIZEN PROTECTS...

No information will be included about the person who filed the report when we reach out to the person responsible.

# How can you be discerning with the posts you see?

- Have you experienced seeing a news event and thinking it was true because of rumors or a false image/video?
- What was the event?
- How did you figure out that the news was false?

We Think Digita

We are part of one online comunity, we all have a responsibility!
